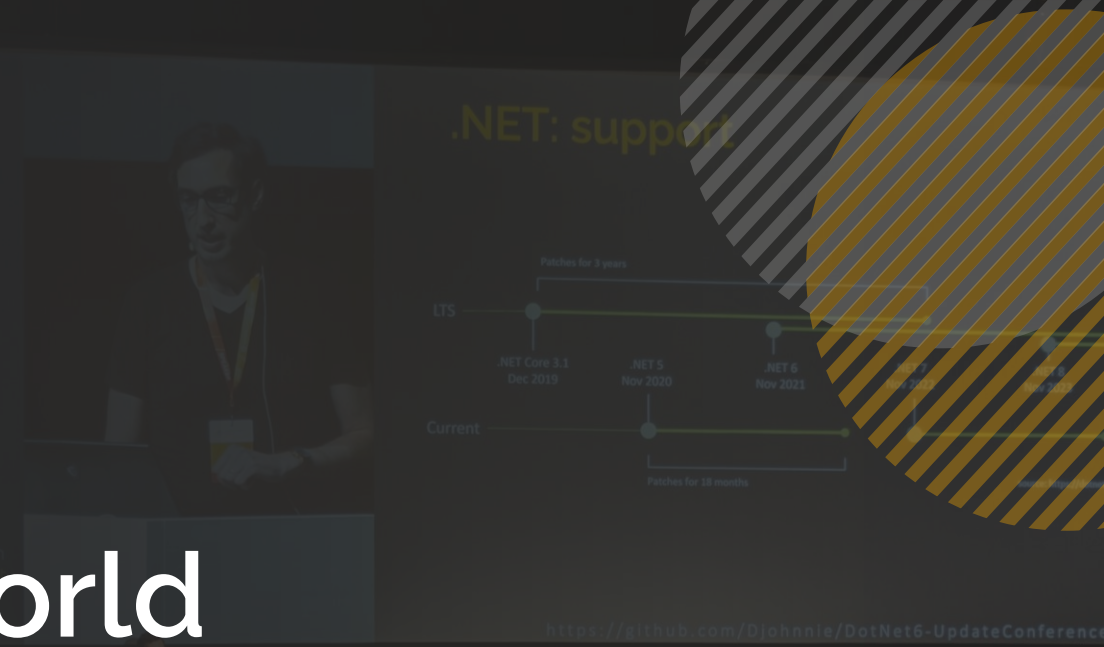
Update Conference
Prague 2022



Brave New Nullless World
in C# 10

Zoran Horvat
Principal Consultant at Coding Helmet

About me

- Author at Pluralsight
- Author at Udemy/Udemy for Business
- Publishing at YouTube
  youtube.com/@zoran-horvat

Agenda

- Nullable reference types
  when is a non-nullable reference null?
- Back to basics with OOD
- Optional objects
  when is an object not an object

The Object Rule

If you have an object

then it's fine

The First Law of Defensive Coding

When you have to defend

you have already lost

The Null Sanity Check

There are reasons why
null still exists

but your reason is
not one of them

Update Conference Prague 2022

Thank you!
